

Call for Papers

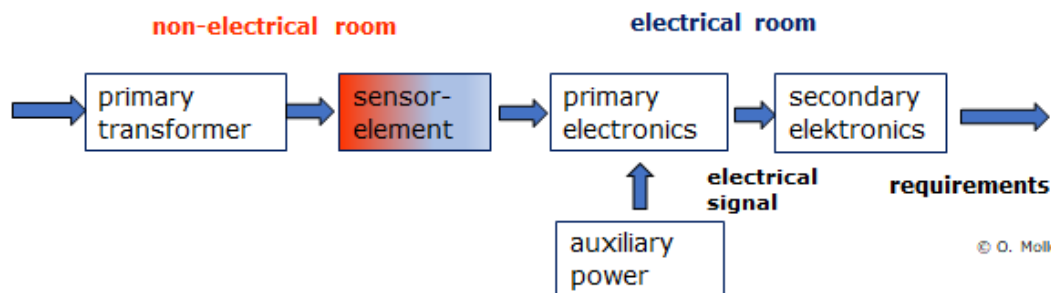

Submitted by: **05.04.2018**

Focus 2018: Smart Sensors & related Applications

Interdisciplinary communication

Information exchange on questions and solutions of measuring and sensor technology

sensor → smart sensor → sensor 4.0
measurand → data

Keywords:

Sensors and sensor systems, measuring principle, smart electronics, signal processing, multi-sensors, materials, process safety, interfaces, assembly and connection technology, manufacturing technologies...

Tell us your success story!

- best practice examples, that show a suspense level from sensors to digitalisation
- how you push your international exchange
- with which interfaces you get an understanding of the demands of your costumers
- with which developments of your measuring technology you are successful

ELMUG stands for **e**lektronische **M**ess- und **G**erätetechnik (electronical measurement and equipment engineering). Take a benefit of the **sensor hub**. Break **new grounds** and **get inspired**. Find new **cooperation partners**. Use your ideas in **industrial applications**.

Form for submission: www.elmug4future.de

Explanations to the call:

Advertising for products during the sessions is not allowed. The conference languages are German and English. Contributions in English are welcome. The presentation slides have to be submitted in English.

The submission of a lecture is only possible with the form. Please fill in the information in the form. It helps us to classify the lecture in a fitting session.

Please give your contribution a short headline. You can explain your subject in a short description. Also focus on the benefit of your contribution for the participants.

We gladly request you to send the duly completed form until **05.04.2018 (deadline)** to: **ines.richter@elmug.de** (We would like to send a Word file if requested.)

You will receive a notification with an acceptance of your lecture and the classification in a session in mid-June 2018.

You can find further information regarding the technology conference at: www.elmug4future.de. Please remember that the abstracts of the accepted lectures will be published on this website.

Conference fees (only for NON-members)

		after 31.07.2018
speaker (1 author each lecture):	100,- Euro	(no discount possible)
1 day:	340,- Euro	400,- Euro
2 days:	470,- Euro	550,- Euro
Exhibitor (2x2m):	750,- Euro	950,- Euro
networking in the evening	45,- Euro	59,- Euro

discounts: 10% for cluster members in Thuringia

International guests will pay the reduced price of the speakers.

Proposal of a lecture

- Form:** paper
- Lenth:** 15 - 20 minutes (recommended number of slides: 15)
- Tandem presentation:** **yes** **no**
- Poster:** **yes** **no**

Title: Please short and memorable.

.....

Subtitle: Title and subtitle should clarify which subject is addressed by the contribution or which priorities are set.

.....

Short description: Please describe the subject of your contribution in maximum 3 sentences. This short description is the quick access to your contribution. In case of tandem presentations, please describe your need, R&D and the result.

.....
.....
.....
.....
.....

Keywords: Which topics are addressed by the presentation (maximum ten keywords)?

technology conference

discussion | cooperation | innovation

Purpose of the lecture:

- arousing interest
- presenting a technology
- searching for partner
- discussing fields of application
- encouraging a debate
- other:

.....

Information about speakers: Please note a short information about yourself and (if applicable) your co-speakers.

speaker 1:

speaker 2:
